education

2024 – 2026

HARVARD BUSINESS SCHOOL

BOSTON, MA

Candidate for Master of Business Administration, May 2026. Summer Venture in Management Program, 2019.

- President of Section G
- Member of Tech Club, AI Club, Entrepreneurship Club, Energy Club, General Management Club, PRIDE Club

2016 – 2020

GEORGIA INSTITUTE OF TECHNOLOGY

ATLANTA, GA

Bachelor of Science in Computer Science. Georgia Tech Honors Program. Graduated with Highest Honors, 3.97 GPA.

- Concentration in Systems & Architecture and Human-Computer Interaction
- Teaching Assistant for CS 1332: Data Structures & Algorithms; Executive Tech Lead for iOS Development Club
- Study Abroad in Barcelona, Spain: enrolled in Georgia Tech courses at La Universitat Politècnica de Catalunya
- 2017 College of Computing Most Outstanding Freshman; member of Georgia Tech Student Ambassadors

experience

2020 – Present

APPLE INC: Intelligent System Experience

CUPERTINO, CA

Senior Software Engineer (full-time: 2022 – Fall 2024, part-time: Fall 2024 – Present)

Led the development and cross-functional architecture of major system experience tentpoles and hardware features.

- *Strategic Project Management:* Spearheaded the development and technical structure of the new Control Center experience in iOS 18 and engineered core system integration of new Controls features; influenced teams and demonstrated technical expertise to build a long-term architecture that is both developer- and customer-focused
- *Developer Impact:* Collaborated with other teams to design the iOS 18 Controls API; presented a developer-facing technical session, *Extend your app's controls across the system*, at the annual developer conference, WWDC'24, resulting in widespread third-party adoption of the new API on its release day
- *Cross-functional Leadership:* Coordinated teams across software engineering to build the core infrastructure and experiences of the Action button on iPhone 15 Pro; facilitated decision-making across design, engineering, and product marketing to ensure alignment with broader product goals and user experience expectations
- *Rapid Upskilling:* Worked with designers during a three-month rotation onto the Watch Faces team to craft prominent watchOS 10 features, including the Palette watch face and Smart Stack system space; learned Metal graphics shading language and built new testing infrastructure for watch faces

Software Engineer (2020 – 2022)

Developed key iOS system features, focused on quality, and built strong relationships with engineers and designers.

- *Attention to Detail:* Advanced the infrastructure of the Dynamic Island on iPhone 14 Pro, focusing on reusable user interface elements that create a consistent user experience across various use cases
- *Creative Problem Solving:* Identified critical animation and performance issues faced by the customizable Lock Screens feature in iOS 16 and implemented robust solutions that prioritized visual quality
- *Design Thinking:* Developed new iOS and iPadOS 15 features including App Library on iPad and the redesigned Widget stack configuration; iterated with designers to create a seamless user experience
- *Quality-focused Engineering:* Polished prominent Home Screen features for iOS 14 including Widgets on the Home Screen and the all-new App Library

2018 – 2020

ERUDITE APPS LLC

ATLANTA, GA

Founder & Lead Engineer

Led a team to build *Unfoldit*, a paper-folding spatial awareness brain game, for iOS [App Store] and Android [Play].

- Over 40,000 downloads on the App Store with a 4.9-star rating
- Georgia Tech InVenture Prize Finalist (2019): competed live on television in GT's largest invention competition

2018 – 2019

APPLE INC: iOS System Experience

CUPERTINO, CA

Software Engineer Intern (Spring – Summer 2018, Summer 2019)

Developed cross-platform, foundational components while working cross-functionally on prototypes and architecture.

- Shipped interface improvements, core system component enhancements, and internal framework features (SPIs)

technical skills Programming languages: Swift, Objective-C, Python, and Java. Tools: Xcode and Git.

community Team Captain, OutLoud Sports Dodgeball, San Francisco (2024). Vice President, Omicron Delta Kappa (2019). Brotherhood Chair, Delta Chi Fraternity (2017). GT One-To-One Leadership Program (2017). Eagle Scout (2013).

personal Conversational in Spanish. Enjoy hiking, transcribing music, and playing violin. Space-curious. Westworld enthusiast.
